**TASK TITLE**

**Contract in force**

**Dissemination of Results**

**OBJECTIVES**

**Contract in force**

Dissemination of results produced during the HighPlan Pianalto Project

## ACTIVITIES

Contract in force	State of art
<p><b>A)Dissemination of information to raise public awareness locally regarding the project:</b></p> <ol style="list-style-type: none"> <li>1) press conference to present the results of the project to a wider audience of the general public.</li> <li>2) accumulation of all the data regarding the project, project outline, objectives, activities and results obtained. They will be presented to the local population, representatives of the Municipalities, Provinces and the Region through three Conferences (one per Province) held at the end of the project,</li> <li>3) Information regarding the project and its results to be printed in concise and easy to read leaflets available to the general public.</li> <li>4) Website- updated continually, part open to the general public containing information regarding the project, objectives and activities, dates, times and locations of the meetings of the Steering Committee and the Forum, an area dedicated to the download of useful and interesting documents plus an area with reserved access for use by the Steering Committee. Considering that the Municipalities involved in the project are spread across a wide area, this will be a useful tool for contact and communication between participants and will reduce the number of physical transfers made, leading by example in undertaking a more sustainable behaviour</li> <li>5) links with Region, Province web pages</li> </ol> <p><b>B)To disseminate information regarding the project to third parties (external to the project) to facilitate replication</b></p> <ol style="list-style-type: none"> <li>1. Updating of European Commission/Managenergy.net files regarding the project and how it is proceeding</li> <li>2. Final Conference to illustrate project and its results</li> <li>3. Production of a CDROM</li> <li>4. Production of a final volume to be distributed to those interested in the project, highlighting the context, the socio-economic and historical background of the area, the course followed by the Pianalto area to achieve the results and how the participatory process was able to offer a Sustainable Planning tool.</li> <li>5. Website- updated continually, part open to the general public containing information regarding the project, objectives and activities, dates, times and locations of the meetings of the Steering Committee and the Forum, an area dedicated to the download of useful and interesting documents plus an area with reserved access for use by the Steering Committee. Considering that the Municipalities involved in the project are spread across a wide area, this will be a useful tool for contact and communication between participants and will reduce the number of physical transfers made, leading by example in undertaking a more sustainable behaviour</li> </ol>	

Participant responsibilities : all the members from the steering committee will have the responsibility to guarantee the best contacts in order to organize a general final meeting, spreading the achieved results.

Methods : it will be very important to create networking between all these participants/stakeholders/local communities. The participative method can help in organizing the General Final Meeting in order to spread the achieved results.

Performance indicators: number of participants for the general final meeting; number of people involved in networking; grade of appreciation of the material produced (eg. cd-rom )

Expected Results: high participation in the General Final Meeting; high quality material produced (cd-rom-brochures, papers etc)

Objectives: spread results, demonstrate the possibility of networking/empowering local communities; use of IT for spreading results, spreading results both within the area involved to the interest groups and stakeholders as well as to third parties (external to the project) who may be interested in replicating the experience.

Constraints and Assumptions: scarce participation at the general meeting, scarce collaboration from Region, Provinces

<b>Start Date</b>	01/10/07	<b>End Date</b>	30/11/07
-------------------	----------	-----------------	----------

<b>Duration</b>	2 months
-----------------	----------

Deliverable Date	Deliverable Description	STATE OF ART
30/11/07	Production of a final report and a CD ROM illustrating the path and methodology of the project, the objectives, the results achieved and the difficulties encountered	
Milestone Date	Milestone Description	
30/11/07	Publication of the project experience and conference to illustrate the project results
